**Accmar Equipment to Highlight Latest Line of Products & Services at 52nd
Annual Fort Lauderdale International Boat Show, October 27-31, 2011**
Company Records Strong Growth, Particularly in the International Markets

Miami, October 21, 2011 – Accmar Equipment Co. has announced that it will highlight its complete line of products and services at this year's Fort Lauderdale International Boat Show, from its booth in the Yacht Builders Pavilion in the main event venue at Bahia Mar Yachting Center. Company representatives will be on hand to showcase signature products such as the new Accmar Megayacht Power Pedestal for marinas accommodating large yachts, to its extra-wide step ladder, a popular accessory for docks and marinas.

“We are thrilled to be a part of the Fort Lauderdale International Boat Show at the Bahia Mar venue this year,” said Accmar Founder and CEO Juan Pizarro. “The Show brings the international yachting community together for five days, and with our company working on projects in countries like Dubai, Venezuela, Ecuador, and Nigeria, it's another opportunity for us to reach the right target audience with our products and services when they're most interested and enthusiastic about this industry.”

The Accmar Equipment Megayacht Power Pedestal is designed to service the needs of megayachts and superyachts with the capability of delivering up to a maximum of 510 AMPS power per pedestal. It can be custom designed to provide a range of options including Cable TV/telephone receptacle, electric meters (with digital or mechanical readouts), LED lighting, key lock hardware and water metering.

About Accmar Equipment

Accmar Equipment Company manufactures the finest in quality power pedestals and lights, dock equipment & dock accessories for the marine industry. Many of our products are made to order in our Miami, Florida warehouse to ensure the highest quality and attention to detail. Accmar Equipment Company prides itself on developing long term relationships with our customers while delivering quality products at competitive prices. We have applied over two decades of experience to design and produce our own signature products that are superior to any others on the market. Accmar Equipment Company received certification from Underwriters Laboratories (UL) in 2010 for its family of 45" shore line power equipment. This listing means that Underwriters Laboratories has rigorously tested and evaluated the product and determined that it meets their strict requirements. UL is the trusted resource across the globe for product safety certification and compliance solutions.
