

# Mega Power Pedestals

## Designed for Vessels over 100 Feet in Length!

Compactly mounted in high quality 5052-H32 marine grade aluminum casing with 1/8" wall thickness and powder coated inside and out, Accmar Equipment's watertight mega power pedestal measures 45" in height and is designed with removable front and back access panels providing easy access for both installation and maintenance.

This unit is designed to accommodate higher voltage and amperage needs for larger private and commercial vessels: Power block w/ ratings from 335 to 510 AMPs, 600V & up to 1000 Volts AC/DC

Before shipping the pedestal to you for easy installation, each dock pedestal is inspected and tested to ensure the highest level of quality control and equipment performance.
