

Good Service is Good Business

Dock Power Pedestals

Built to withstand the harshest weather conditions!

Compactly mounted in high quality 5052-H32 marine grade aluminum casing with 1/8" wall thickness and powder coated, Accmar Equipment's watertight power pedestals are built in the USA following strict UL guidelines (Standard 231) to ensure safety. Our pedestals are designed with a wide base and front access panel providing easy access for both installation and maintenance.

Before shipping the pedestal to you for easy installation, each dock pedestal is inspected and tested to ensure the highest level of quality control and equipment performance.

45 " pedestal

38 " pedestal
